

AHP Performance Benchmarking Service Subscription Rates and Order Form

The AHP Performance Benchmarking Service is designed to collect data from **individual** health care organizations. However, health care systems may also enter one set of data for the entire system although it is *highly recommended* that the system include data from its organizations on an individual basis. Health care systems may choose to enter data from all organizations within their system or from a select few.

One time set up fee: **AHP Members: \$4,000; Non Members: \$5,200 (take 10% off!)**
 Yearly subscription rate*: **AHP Members: \$1,000; Non Members: \$1,500** per organization entering unique data

*Your subscription includes three users per organization.

Example: Computing the rate for a health care system

ABC Health System includes four health care organizations. The system decides to enter data for all four organizations and also one set of data for the entire system. In its first year, ABC Health System would pay the one time set up fee of \$4,000 and a subscription rate of \$5,000 (\$1,000 for the system data and \$1,000 for each organization's data). In year two, ABC Health System would pay \$5,000 (\$1,000 for the system data and \$1,000 for each organization's data).

Example: Computing the rate for a single health care organization

In its first year, XYZ Organization pays the one time set up fee of \$4,000 and the subscription rate of \$1,000. In year two, XYZ Organization pays \$1,000.

Note: The annual subscription fee applies to consecutive years. If an organization decides not to renew in any one given year, then it must re-join the service and pay the set up fee.

Section A

AHP Member Set up fee ~~\$4,000~~ **\$3,600**
 Non Member Set up fee ~~\$5,200~~ **\$4,680**

Limited Time Offer: get 10% off the set up fee when you enroll by May 31, 2010!

Section B

Number of AHP Member organizations subscribing: _____ x \$1,000 _____
 Number of Non Member organizations subscribing: _____ x \$1,500 _____

Section C

Total (add total from Section A and Section B):
